

# Redesigning a website

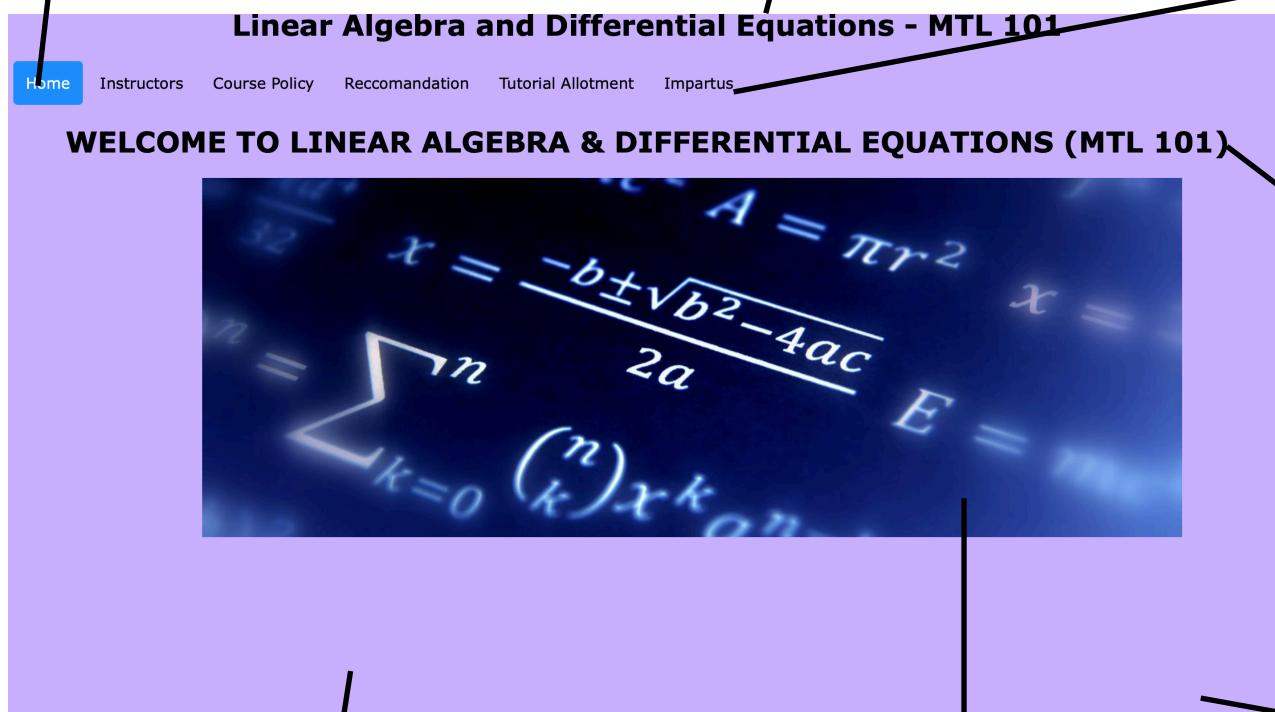

MY

PAGE

Initially there was no navigation tab .so it was very difficult to find things in easy way.i have added various tab in navigation bar so by clicking on that they will be able to get what they want.

Initially heading was not bold & was difficult to know which webpage is open. So I make it bold . So I am getting to know which webpage is open.

I have added tab of impartus to access course content otherwise student have to loggin Moodle for course content.

Less content on home page Immediately communicate your purpose, with clarity and

Multiple photo slides on home page makes it attractive. & user wish to spend time

Welcome to any page attract people.I am inspired to write this by IIT Delhi webpage. I found it very attractive on home page.

Initially there was no background color so it was looking dull.i have added variable color which refreshes itself after certain time limits.it also seems very attractive.

Prof. N. Shravan Kumar Email: <a href="mailto:shravankumar@maths.iitd.ac.in">shravankumar@maths.iitd.ac.in</a> Phone: 011 26591485 Office: MZ 174	Prof. Amit Priyadarshi Email: <a href="mailto:priyadarshi@maths.iitd.ac.in">priyadarshi@maths.iitd.ac.in</a> Phone: 011 26591484 Office: MZ 162

No navigation tabs.

Page is very dull. Difficult to find things in easy way.

**Attendance:** Attendance is compulsory.

Things are not in arranged way.

**Evaluation:** There are four components.

1. Minor tests 40%,
2. Major test: 30%,
3. Tutorial Assignments: 10%,
4. Quizzes (three of 10 marks each): 20%.

**Tutorial Assignments:** Ten tutorial problems (to be assigned) have to be submitted every week (one or two per week) during the tutorial sessions. If you are absent for a tutorial session, you cannot submit that day's assignment by any means.

**Reminor:** There are two minor tests (20 marks each). There will be a re-minor test before the major test. This is for the students who have missed any minor test(s) because of medical reasons. To

## **Help & Motivation for transforming this page**

I have taken help from various websites for html & css codes.

I have gone through various standard webpages to see what people demand .

Previously When I open this page ,it was very irritating because of bad designing of page.

Thank u
